

## DATA SHEET

# PRIESS SHELTERS

### DESCRIPTION

Priess Shelters consists of modular built sandwichpanels. There are 28 standard sizes based on standard modules. Delivery on-site according to the 'Plug & Play' principle is possible. Priess Shelters can be used for all kinds of technical installations

### MATERIALS

Priess Shelters sandwichpanels contain 100mm mineral wool. The sandwich panels are flame retardant and have a U value of 0.40 W / m<sup>2</sup>K. Priess Shelters are equipped with high quality steel doors. If required additional burglary protection / noise damping or fire retardant doors, can easily be adapted. Priess Shelters are delivered either on concrete foundation with optional openings or on steel base.

### COLOR

The standard color is RAL 7024. Priess Shelters can alternatively be painted in another color based on the RAL color chart.

### ADDITIONAL OPTIONS

Priess Shelters are also available as customized solutions, therefore Alfred Priess A/S can offer a wide range of options such as:

- Electrical installation of light, heat, cooling, electrical outlets, racks, alarm, etc.
- Gutters & windows
- Exterior facing with e.g. wood
- EDB floor, tiling/linoleum/epoxy etc.
- Priess Shelters can be painted in exactly the RAL color you want
- Can contain cloakroom, toilet etc.
- Montering af kraner
