

DATA SHEET

PRIESS SHELTERS

DESCRIPTION

Priess Shelters consists of modular built sandwichpanels. There are 28 standard sizes based on standard modules. Delivery on-site according to the 'Plug & Play' principle is possible. Priess Shelters can be used for all kinds of technical installations

MATERIALS

Priess Shelters sandwichpanels contain 100mm mineral wool. The sandwich panels are flame retardant and have a U value of 0.40 W / m²K. Priess Shelters are equipped with high quality steel doors. If required additional burglary protection / noise damping or fire retardant doors, can easily be adapted.

Priess Shelters are delivered either on concrete foundation with optional openings or on steel base.

COLOR

The standard color is RAL 7016. Priess Shelters can alternatively be painted in another color based on the RAL color chart.

ADDITIONAL OPTIONS

Priess Shelters are also available as customized solutions, therefore Priess A/S can offer a wide range of options such as:

- Electrical installation of light, heat, cooling, electrical outlets, racks, alarm, etc.
- Gutters & windows
- Exterior facing with e.g. wood
- EDB floor, tiling/linoleum/epoxy etc.
- Priess Shelters can be painted in exactly the RAL color you want
- Can contain cloakroom, toilet etc.
- Mounting with cranes.
